Jacquie,

Attached please find the Springfield Metro Sanitary District (SMSD) Pretreatment Ordinance for your review, now that this has been assigned to you. I have not sent you the technical documents dealing with local limits calculations, however, if you want to see them please let me know. I don't have the Enforcement Response Plan (ERP) – if you want to see that I will request one from Ms. Verhulst. If there is anything else you need, please email or call @ 6-0211. Thank you.

J.J. Schweizer

Subject: Modified Pretreatment Ordinance of the SMSD for approval

Hello Jonathan,

Attached is the modified Pretreatment Ordinance of the Springfield Metro Sanitary District. The format is the original document with additions made in red, and deletions notated in red strikeout. All limit changes are based on the Local Limits calculations that were previously submitted. The Table of Contents has not been revised yet, as page numbers, etc. will change when the red strikeout is removed.

We would like you review this document and give tentative approval to the changes we have made. When we receive the tentative approval, we will draft documents to be sent to affected industries and published in the local paper for public comment. We will send these documents to you for approval prior to publication.

Thank you for your attention to this matter, and please let me know if you need any additional information.

Linda Verhulst
Technical Supervisor
Springfield Metro Sanitary District
